Untie the Knots®: A Prescription for C.H.A.N.G.E.

(Coping With Change From the Inside Out)

Change is constant, and it's impacting everyone. While you may not be able to change the circumstances around you, what you can change is your reaction to those circumstances. And sometimes that changes everything. This keynote presentation explores how to be a change-ambassador instead of a change-critic, thereby increasing your effectiveness. That means developing new and improved attitudes, habits, and relationships. When those new attitudes, habits, and relationships meet the skills and knowledge you already possess, anything is possible. After this inspirational and fun keynote session, you will welcome change and regard it as an opportunity to go from "a negative and draining workplace" to "a green and growing workplace".

"Ty Howard was a motivational speaker at my financial symposium. Before the symposium he reached out to me and we had a conversation about my offices and its challenges, which was very refreshing. My symposium was for 2 days. Ty was scheduled to speak on the second day; however, he came the first day to observe the audience. Ty was the very last speaker on the 2nd day and he was awesome. Without giving away his presentation, let me tell you that my staff left the symposium with energy, smiles and positive attitudes. They were talking about him for days. I would highly recommend for any organization looking for a dynamic - professional - motivational speaker with lots of substance, interaction, humor and fun, to hire and have Ty Howard as a keynote or general session speaker! If you can... have him at the end of the last day."
